

Let's create a healthy workplace together!

Partner guide

R-Go Tools Who we are.

We develop ergonomic tools for healthy monitor work and deliver worldwide via partners. Our products are characterised by their unique combination of ergonomics, affordability, sustainability and design.

Your health
is our priority.

Healthy living and working is important for everyone. That is why we design ergonomic products with you in mind! Our products carry the **AGR seal of approval**.

All with an eye
for the environment.

We strive for circularity in the design and production of our products. For this commitment, we received the **Ecovadis Platinum certificate**.

With heart for
people in need.

In addition to making social products we support development projects through our Tools4Life foundation. Since 2023 we are officially a **B-Corp company**.

Because we care.

Creating healthy workplaces together.

We spend more and more hours behind the screen. And unfortunately not without adverse effects, as many people experience physical complaints as a result. Did you know that many complaints are easy to prevent by moving regularly during your working day and designing your workplace ergonomically? With our ergonomic products, we would like to work with you to create healthy workplaces.

That way, your customers will:

- ✓ Experience fewer complaints
- ✓ Feel fitter
- ✓ Be more productive

Quality certificates and awards

A Dutch company in more than 25 countries.

Designed with you in mind!

R-Go HE Mouse

A mouse for every hand.

With integrated break indicator

The LED colour signals in the mouse indicate how healthy you are working and when it is time for a break. The mouse stimulates you to take breaks on a frequent basis.

Vertical grip

Ergonomic round shape for a comfortable grip with less muscle strain. The natural vertical position stimulates healthy mouse movements from your arm.

S: <165 mm
M: 165-185 mm
L: >185 mm

Available in different sizes

Our mice are available for left- and right-hand users and in different sizes. A mouse for every hand! Measure your hand to discover your size.

Adjustable DPI

Rechargeable battery

Wireless variants include a rechargeable battery, with a time of up to 4 months of use.

Lightweight

Minimum weight for minimum muscle tension.

Little finger and thumb⁽¹⁾ support

To prevent your hand from sliding down, the mouse is equipped with a little finger and thumb⁽¹⁾ support.

Soft coating

Soft coating for a soft feeling and improved grip.

⁽¹⁾

Adjustable buttons

Personalize your buttons, such as 'cut' and 'paste', to work even more efficiently.

100% Recycled plastic

The plastic used for this mouse is 100% recycled.

Connectivity

Available in wired and Bluetooth variants.

R-Go HE Break mouse

The intelligent ergonomic mouse with personal break coach

Short breaks during your working day are vital for your health! Micro breaks prevent overloading of small muscles and tendons and improve your blood flow and concentration. Because breaks are often forgotten when you are focused at work, we've developed a break tool that reminds you to interrupt your work on time.

The patented R-Go Break software uses colour signals to indicate when it's time to take a break. During mouse usage, the light changes colour, like a traffic light:

-  Green: you are working healthily!
-  Orange: time for a break
-  Red: you've missed a break

This way you will get positive feedback about your break behaviour. Download the **R-Go Break software** (www.r-go-break.com).

You are working healthily!

Time for a break

You've missed a break

We care for our environment

We strive for circularity in the design and production of our products. For this commitment, we have received the **Ecovadis Platinum certificate**.

- ✓ All plastic and aluminium used for our mice is 100% recycled.
- ✓ Eco-friendly packaging made from recycled cardboard with FSC certified sleeves.

The ergonomic mouse that gets you twisting!

R-Go Twister ambidextrous mouse

For left & right handed use and foldable thanks to its patented twist & fold system.

Ambidextrous design

Twist! With 1 simple movement, you change it from right- to left-handed mouse. By doing so, you relieve your "mouse" arm.

Foldable: easy for travelling

Thanks to the patented twist & fold system, the Twister is easy to take anywhere.

With integrated break indicator

The Twister has a break indicator LED that changes colour when it is time to take a break. With the latest Break software, you can stay fit during your workday.

- Bluetooth 5.0 connection & wired in 1**
- Lightweight**
Minimum weight for minimum muscle tension.
- Thumb support**
To prevent your thumb from sliding down, the mouse is equipped with a thumb support.
- Patented break indicator**
Download the R-Go Break software via www.r-go-break.com
- Rechargeable battery**
You can recharge your Twister mouse with the rechargeable battery to get up to 2 months of battery time.
- Adjustable DPI**
- Personalize your mouse! ***
The Twister can be personalized with your logo or favourite colour. Perfect for advertising or as a personal gift.
*From 100 pieces.
- 100% Recycled material**
The material used for this mouse is 100% recycled plastics & aluminum.
- Different sizes**
Soft pads included to adjust size to Small, Medium or Large.
- Patented twist & fold system**
Twist easily from left handed use to right handed use with the patented twist & fold system.

Ambidextrous mouse

Twist & fold mechanism

This unique mouse has a special feature: it is ambidextrous. As the Twister has a twist it contains a so called twist & fold mechanism. One moment you use the mouse with your right hand ... and then, with just one move, you switch to the left. By alternating this way, you relieve your 'mouse arm' and can continue working in a healthy and comfortable way. You can also share the Twister with your colleagues or roommates.

Ergonomic design

The vertical design of the Twister minimises muscle strain and allows movement from your arm instead of just your wrist, whether you are right- or left-handed. The round shape and support for thumb and little finger allows your fingers to rest relaxed.

We care for people in need

By buying the R-Go Twister mouse you help people in need. You receive the mouse with a trendy pouch from **i-did**. The pouch consists of felt made from 100% recycled materials and its manufactured in a social workplace. Folded up, you can ncarry the Twister in it perfectly and safely. This is one of the projects which makes us a **Bcorp!**

Check out this video about i-did!

Creating healthy workplaces | www.r-go-tools.com

Because we care.

Healthy laptop use

Ergonomic laptop stand

Laptops are ideal for working anywhere. Unfortunately they are not designed for healthy working and provoke a hunched posture. It is precisely this posture that is very strenuous for the neck and shoulders. We have developed the R-Go Riser Basic, which makes it possible to work healthily everywhere.

This Basic version laptop stand has also been AGR-tested and recommended. The stand is easy to operate and can be adjusted to three different heights, allowing you to work in an upright posture. The stand is easy to carry in your laptop bag, so you can create a healthy workplace anywhere.

We care for our environment

We strive for circularity in the design and production of our products. For this commitment, we have received the **Ecovadis Platinum certificate**.

- ✓ All aluminium used for our Riser Basic laptop stand is 100% recycled.
- ✓ Eco-friendly packaging made from recycled cardboard with FSC certified sleeves.

R-Go Steel Travel & Office Laptop stand

To create your own healthy workplace.

Stimulates an upright posture

These ergonomic laptop stands bring your laptop to eye level. This way you sit upright in front of your screen and prevent annoying pain in your neck and back.

Social product

This product is assembled in a social workshop where people with a distance to the labor market are given a chance to use their talents.

Foldable

The Steel laptop stands are foldable and therefore easy to take with you. So you can work healthily anywhere!

Solid, industrial design
Unique industrial design made in Holland.

Stable, steel stand for all laptop sizes
It is made entirely of steel, has a weight capacity of 11.0 lb (5 kg) and is suitable for all laptops from 10 to 22 inch.

Foldable laptop stand
The Travel laptop stand is foldable and therefore easy to take with you.

Healthy laptop use

Create an ergonomic workplace anywhere

Laptops are ideal for working anywhere. Unfortunately, they provoke a hunched posture. It is precisely this posture that is very stressful for the neck and shoulders. With the R-Go Steel laptop stands you can work in an upright posture so you can work healthily everywhere.

Because these laptop stands are foldable, they are the perfect laptop stands for when you're on the road a lot. Because they are foldable, they fit easily into your bag and you can use them anywhere.

Social product

The R-Go Steel laptop stands are made in collaboration with **Avres**. This organization gives people with a distance to the labour market a chance to work and use their talents to contribute. When you purchase an R-Go Steel laptop stand, you are supporting the wonderful work of Avres. This is one of the reasons why we have become a **Bcorp**.

Healthy working everywhere

R-Go Treepod Laptop & tablet stand

Consists of 100% 'bio-based' material, making it a green product.

2-in-1 stand: for laptop and tablet

The Treepod is a 2-in-1 stand that you can change from a laptop stand to a tablet holder.

100% bio-based material

The Treepod laptop and tablet stand is made of 100% 'bio-based' material and mainly of wood, making it a green product.

Modular design

It has 3 different positions, so you can adjust it to your needs. The 3 separate parts can be assembled and disassembled easily. Easy to take with you and to work healthily anywhere!

Easily adjustable

Can be adjusted in 3 positions. Brings the screen easily up to eye level and prevents neck and shoulder pain.

2 in 1

The Treepod is suitable for all laptops and tablets from 10 to 22 inches.

Modular design

Consists of 3 separate parts, which you can easily assemble and disassemble!

Strong material

This stand is surprisingly strong! It can carry up to 11.0 lb (5 kg).

Healthy working

Prevents hunched posture

Did you know that an incorrect set-up of your screen has a direct effect on your work posture? A hunched posture can quickly lead to neck and shoulder complaints. In this position the weight of your head will put a force on your neck muscles which is comparable to 27 kilograms! With the use of a laptop- or tablet stand you can easily and quickly raise your screen to eye level. This way you automatically adopt an upright healthy working posture.

We care for our environment

We strive for circularity in the design and production of our products. For this commitment, we have received the **Ecovadis Platinum** certificate.

- ✓ Made from 100% bio-based material mainly of wood, making it a green product.
- ✓ Eco-friendly packaging made from recycled cardboard with FSC certified sleeves.

Working healthily with monitors

R-Go Caparo & Zepher monitor arms

Designed according to the principles of circular product design.

Certified 100% circular

Our monitor arms are designed in such a way that the materials can be easily separated for recycling.

Modular design

Easy to expand as desired with a document holder, laptop holder, Smartbar or an extra arm. The modules can easily be replaced, repaired or upgraded.

Easily adjustable

Easily adjustable in depth and height. The screen can be tilted and rotated as desired. The Caparo arm is equipped with a gas spring.

SMART Lock
Attach your screen to the monitor arm with one click.

Minimum weight
We use a minimum of materials so that the weight is also minimal.

SMART Stop
Lock the rotation of the arm in a certain direction with the rotation stop.

SMART Connect
Connect all modules without tools and in an intuitive way.

Installation from above
All monitor arms can be easily installed from above the worktop.

Integrated cable management
Neatly conceal all cables in the integrated cable tray.

Integrated gas spring
The Caparo monitor arm has an integrated gas spring.

Healthy monitor work

Prevents hunched posture

Did you know that an incorrect set-up of the monitor has a direct effect on your work posture? A hunched posture can quickly lead to neck and shoulder complaints. In this position the weight of your head will put a force on your neck muscles which is comparable to 27 kilograms! With the use of a monitor arm you can easily and quickly raise your monitor to eye level. This way you automatically adopt an upright working posture.

Modular monitor arm

Our monitor arms are modular by design, allowing you to create an ergonomic workplace in any situation. Do you work with multiple screens or do you prefer to use a document holder or laptop holder? It's all possible with our separate modules.

Raise your documents

R-Go Flex Read & R-Go Read2Write document holders

To work healthily in an upright posture.

Stimulates an upright posture

With a document holder you bring the paper towards your eyes, and therefore automatically adopt an upright working posture.

Ideal for reading and writing

Both document holders are ideal for reading and writing. The R-Go Read2Write can be changed from read- to write-position in just one movement!

Soft foam wrist support

The document holders are equipped with a soft foam wrist support for optimal comfort while working.

Unique design

The R-Go Flex Read has a unique design with acrylic transparent top and steel base frame.

Adjustable in 6 angles

This document holder is adjustable in 6 positions to suit your needs.

Soft foam wrist support

With a soft foam strip to support your wrists and for optimal comfort.

R-Go Read2Write

From reading to writing in one movement

With the R-Go Read2Write you are unconsciously stimulated to work in a healthy posture. By placing your documents in front of you on a document holder rather than next to your keyboard, you prevent an uncomfortable posture. This document holder is easily transformed into a writing surface by pulling the top forwards. By bringing the work towards you, you prevent a hunched posture.

For taking notes, the Read2Write has a soft foam wrist support on the front. This prevents pressure on the wrists while writing. Besides ergonomic features, this document holder has a unique design. It is made of lightweight aluminium with a thin top made of oak wood or frosted acrylic.

The curved symmetrical shape support the arms close to the body, whether you use your mouse with left or right.

Symmetrical design

Made from PVC-free faux leather & wood

C-clamps

Soft finish

Your arms rest softly and comfortably.

Curved shape

Comfortable working for everyone.

Improves your sitting posture

Ergonomic design for optimal support

The R-Go Ergonomic Armrest provides optimal support to the forearms during monitor work. The curved shape allows you to slide in well and support the arms close to the body. This stimulates an upright working posture and provides relaxation in the shoulders. The armrest is padded and therefore feels soft and comfortable. This armrest fits almost all desktops.

We care for our environment

We strive for circularity in the design and production of our products. For this commitment, we have received the **Ecovadis Platinum certificate**.

- ✓ Our armrests are 100% recyclable. They are made from wood and PVC-free faux leather.
- ✓ Eco-friendly packaging made from recycled cardboard with FSC certified sleeves.

Healthy working everywhere

R-Go Viva Ergonomic laptop bag

Purchase a bag and support the Agua Viva foundation.

With integrated laptop stand

Includes an integrated laptop stand that can be easily adjusted to eye level. Work ergonomically everywhere!

Social product

By purchasing this bag you help people in need, as we donate 20% of the production costs to the Agua Viva foundation.

Gold certified leather

For our laptop bag we have chosen leather with the highest certification of the international organization LWG "Leather Working Group".

Creating healthy workplaces | www.r-go-tools.com

Because we care.

Healthy laptop use

Create your ergonomic workplace anywhere.

Laptops are ideal for working everywhere. Unfortunately, they are not designed for healthy working and provoke a hunched posture. It's precisely this posture that is stressful for the neck and shoulders. We have developed the R-Go Viva laptop bag, which makes it possible to work healthily everywhere.

Our laptop bag is equipped with a height adjustable stand, so you can elevate your screen to eye level. You will automatically sit in an upright position. The bag is also equipped with extra pockets for a separate keyboard and mouse.

Social project

By buying the R-Go Viva laptop bag you help people in need. Approximately 20% of the production costs of the laptop bag are donated to the **Agua Viva** foundation. This foundation has a heart for people in need and offers rehabilitation trajects in Brazil. This way Agua Viva is able to give even more people a new chance! This is one of the projects which makes us a **Bcorp!**
