

R-Go Read2Write Documentholder

read and write, oak wood

Reference: RGORIDOOW

EAN number: 8719274491309

-
- From reading to writing in one movement
 - Unique design with ultra-thin aluminium base
 - Soft foam wrist support
 - Lightweight
 - Made in the Netherlands
-

With the R-Go Read2Write document holder you are unconsciously stimulated to work in an upright position. This lightweight document holder is easily transformed into a lectern by pulling the top towards you. By pulling the work towards you, you will prevent a bent posture. For taking notes, the Read2Write has a soft foam wrist support at the front. This prevents annoying pressure on the wrists while writing. Besides ergonomic features, this document holder and lectern in 1 has a unique design. It is made of lightweight aluminium with a thin oak top.

- From reading to writing in one movement
- Unique design with ultra-thin aluminium base
